

# ECO- Action

# Sort garbage - help the nature!

The purpose of the project :

- Teach people to be responsible.  
Reduce garbage in landfills.
- Teach you to make money on  
rubbish for your home.

# **Proposed decision to solve the problem and its substantiation:**

The problem of garbage is very real, we offer to teach people to sort garbage. Start with small and start with yourself. Each family will be invited to the meeting and trained how to sort the rubbish and for what to do. Every resident will receive his information on the preservation of our land. And everyone will understand for himself that he will be able to do this.

# Action plan for the implementation of the project:

1. Purchase of special tanks for houses;
2. Holding assemblies, trainings on sorting of garbage;

# **Key indicators of project outcome evaluation :**

- 1. Reducing environmental pollution**
- 2. Attracting more people to sorting garbage.**
- 3. Reduce the burden on landfills and promote the development of the recycling market for recycled materials in Ukraine.**
